

Catalog #CLS40MRSB  
CLS Series Male Inlet

**Panel Mount 400A/600V, 1/2-13 Threaded Stud  
NEMA 3R, 4 when mated with shrouded device.**

- Use up to 250-MCM cable, copper.
- Attach appropriate ring terminal to end of cable.
- Locate ring terminal over stud and secure with lock washer and nut to 25 ft.-lbs. of torque. Do not over-tighten.

**CAUTION: The female cam alignment button on cam – type devices will withstand up to approximately 40 ft.-lbs. of torque. Care should be exercised when attaching a “3-fer” to a panel mount. Excessive torque applied to the 3-fer may result in a collapse of the cam button.**
