

new product:

Making the Best even Better, Improved Inline Cams

Our inline cams are the best in the industry, but we're always looking for ways to make our devices work better for you. We personally visited a number of our customers to see our inline cams in action and received input on what we could improve.

As a result, we updated our cams to use a smoother body design that eliminates sharp edges that can get caught during use. This design also provides a perfectly contoured ergonomic grip to give you maximum control during mating and removal. Highly visible alignment arrows guide quicker alignment during mating.

Add these improvements to the fact that we've added a wider screw driver slot, wider cut lines and offset internal steps you'll see that our inline cams are now better than ever.

new product:

Improved Inline Cam

Wider Cut Lines

Wider indicator lines allow for easier cuts
Offset internal step provides a clean and tight sealing surface

Retention Screw

Nonconductive glass filled nylon screw
Wider screwdriver slot allows easier assembly

Smooth Design

Eliminates sharp edges that get caught during use

Ergonomic Grip

Contour shape is ergonomic and gives user maximum control

Alignment Arrow

Makes mating quick and easy

Improved Contact

Solid brass contact has optimized chamfers on both ends for easier installation

CLS Series 16 Inline

- NEMA 3R/4
- 400A 600V
- Santoprene boot
- Accepts #6-4/0 wire
